# CMVE CHALLENGE GRANT

30 minutes = \$500 to support student veterans

CMVE used its generous Kresge Foundation award to purchase a 2-year agreement with Kognito licensing all public colleges and universities in Michigan for unlimited on-campus use of the [Veterans on Campus](#) online training module geared toward improving faculty and staff military cultural competencies. CMVE has set an ambitious goal of **5,000 completions** across the state before our agreement ends in June 2018. Your campus will be rewarded for hitting a target based on your share of student enrollment across the state with a **\$500 student veteran challenge grant** to be used in support of your military-connected students. Completing the module is quick and easy! Visit <https://micmve.org/kognito-veterans-on-campus/> for instructions on how to access the module from your computer and for more details on the challenge grant opportunity.

# WE WANT YOU!

to complete an online training module in support of student veterans
